It's not practical or fair to have to attend after I receive notice on 21st of Jan for hearing in NY when I can't even see a date of the hearing has been agreed!

Anyway my objections are as follows:

- i) My stock had not vested \therefore not tradeable on any security exchange
- ii) Much more money owed to me
- iii) No choice re way of trading even when I left (was not allowed to have stock vest).

iv) No stock held a behavior accounts
it was from accounting perspective
made account as a debt on the
balance sheet under US company law.

v)
